This TMD is effective from 10 February 2022.

There are certain car owners that fall outside the target market (please refer to “Class of consumers falling outside this target market”).

Within this Product, you can choose from three levels of car insurance cover, depending on your individual needs or circumstances. Each level of car insurance cover includes various additional benefits which are included at no additional cost. You may also include various optional covers which attract an additional cost.

1. Comprehensive Car Insurance

This cover is designed for owners of cars whose likely objectives, financial situation and needs are to protect against the financial burden that may result from an event damaging their car and/or becoming legally liable for damage to other property through the use of their car.

The key attributes of pd.com.au Comprehensive Car Insurance include coverage for events such as collision or impact, fire, flood, malicious damage, hail and storm, theft or attempted theft. Another key attribute is third party property damage, providing cover if their car causes damage or loss to someone else’s property resulting from the use of their car.

Events such as these could result in significant car repair or replacement costs, so this cover is suitable for the intended target market.

2. Third Party, Fire and Theft Car Insurance

This cover is designed for owners of cars, whose likely objectives, financial situation and needs are that they do not wish to have cover if their car is damaged in an incident such as collision or impact, flood, malicious damage, hail and storm, or they have the means to repair or replace their car if it is accidentally damaged; however require cover if legally liable for damage to other property through the use of their car.

The key attributes of pd.com.au Third Party, Fire and Theft Car Insurance are cover against fire and theft damage to the car. Another key attribute is third party property damage, providing cover if their car causes damage or loss to someone else’s property resulting from the use of their car.

This product is suitable for the target market because it limits their financial loss if the car is damaged by fire or theft.

3. Third Party Property Damage Car Insurance

This cover is designed for owners of cars who possess a low value car or owners who are only seeking cover for damage done to another person’s property resulting from the use of their car. The key attribute of this cover is protection against legal liability for damage to another person’s property resulting from the use of their car, such as in a collision.

This product is suitable for the target market because it limits their financial loss due to an incident causing damage to another’s property.
